Carlos Gallinar, Deputy Director for City Development, noted that the intent of placing this item on the agenda is because there are new commissioners so that they can have some basic level of understanding so when they have the cases come before them at least they have some knowledge of the staff report and what's in front of them. He told the commission that if at any time they have any questions to feel free to contact him, David Coronado, or the staff person assigned to that case. Each staff report has a staff person assigned to it with their email and phone number so he asked the commissioners to feel free to contact them directly if the commission needs to so that they can have all the necessary information before the CPC meeting.

7. Annual Report by City Plan Commissioners to City Council

In the past, this board has provided council a memo from the chair outlining the activity reports. The commission has also highlighted any initiative or Special Projects that this board wants City Council to consider. The code requires that it is provided on or before August 15th. This can be done sometime in April before the budget cycle begins, so that City Council can have some indication from the board in terms of projects that they would like to see funded through the city.

Mr. Gallinar will draft a memo and bring it back to the commission for their review during the first City Plan Commission meeting in April.
